

How do I access my accounts?

1. Go to our home page at www.cascofcu.com. Be sure to bookmark this page or add it to your "favorites" so you can find it easily next time.
2. The sign-in section is on the lower right side of your screen. In the space provided, enter your User Name that you established during the application process.
3. For first time users to get a password for your account, come in to speak with one of our MSRs or fill out the downloadable application available on our website www.cascofcu.com and send, scan, or fax back to us. Once you receive a password, type it in the space provided and click **continue**.
4. You should now be logged onto the account summary page. For first time users we recommend you take a moment to click on **Other Options** and then on **Change Password**. Choose a new password that's easy for you to remember, but will be hard for others to guess.
5. The account summary page shows you all your accounts and balances at a glance. From this page, you can perform any of the functions shown on the menu bar at the top of the page.
7. If you need help, click on **Other Options** on the menu bar and select **Instructions**.
8. If you have more questions, don't hesitate to call us. We'll be happy to help you.
